

CAMPUS BIRD COUNT

An event of the **Great Backyard Bird Count-India**

15-18 February 2019

Join institutional and educational campuses across the country in describing the birds that share their homes with you. Introduce your friends and colleagues to birds and nature while doing so.

WHAT TO DO

Watch birds for 15 minutes and upload your birdlist to ebird.org/india

Repeat as often as possible during 15-18 February, visiting different habitats and locations on campus.

Get a group together for better coverage.
